

EDUCATION & CULTURAL TRAVEL

FOUNDED BY: MOSTAFA HASSAN

Overview

Our main mission is to facilitate the admission process for the international students and to bridge the cultural gaps between the international students and their new society. We believe that good education will lead to economic development and a better understanding between different cultures, nations and therefore, a tool to promote world peace. Our team speaks both Arabic & English. Furthermore, the founder of the company was an international student himself and has picked up a diverse and talented team that is very well acquainted with the schools requirements and the needs of the international students.
